SKILLS

Development

Android

HTML / CSS

Bootstrap

JavaScript

jQuery

React JS

Node.js

Design

Wireframing

Digital mockups

Prototyping

Tools

git

Github

React Router

npm

Adobe XD

Sketch

Photoshop

RECENT PROJECTS

Personal Portfolio — http://driventocode.com

React, JavaScript, jQuery, Animate.css, HTML, CSS

Designed/built responsive website with React to showcase projects

GT Horizons Make-a-thon — http://brentonjackson.github.io/clarion

Adobe XD, Adobe Photoshop, Adobe Illustrator

Independent project conceived and prototyped to logically address which mode of transportation is the best option at any given time

Landing Page Redesign — http://brentonjackson.github.io/vower

JavaScript, jQuery, Animate.css, HTML, CSS

Redesigned website for local startup to go along with their mobile app

Made digital mockup to present redesigned product

RELEVANT EXPERIENCE

Design Bloc, User Reseacher

2019

Researched MARTA bus-stops to gather needs and pain-points to improve rider experience

Communicated observations, needs, and potential solutions to stakeholders

Georgia College, 2x Research Grant Recipient / MATLAB Programmer

2014 - 2016

Utilized MATLAB to develop 3 sets of data catalogs to analyze and compare with observe data

Articulated concepts to 4-person team of physicists as only programmer

Won two research grant proposals, one for $2,500 and another for a $300 travel grant to present

EDUCATION

Codepath, Mobile App Design

Spring 2020 · Atlanta, GA

Georgia Institute of Technology, Industrial Design

2017 - 2020 · Atlanta, GA

Georgia College and State University, Physics/ Engineering Dual-Degree

2014 - 2016 · Milledgeville, GA
